Epson continues to set the benchmark for printing and is excited to introduce some amazing new products. Our range of printers offers quality, speed and low cost production. Whether you are starting out, want to expand your product offering or simply upgrading, we've got you covered.

Take this unique opportunity to view our range of solutions for signage, dye sublimation, direct-to-garment, and technical printers. Our team have created some product videos to take you up close and personal with some of their key features and benefits. Don't forget to take some time and check them out.

SureColor S60660L

Produce durable high-impact images quickly, easily, and at reduced cost. The SureColor S60660L is compatible with wide range of media from vinyl and film, to canvas and paper. It suits applications including outdoor signs and banners, screens and shades, vehicle wraps and decals, wall and floor finishes, canvas pull ups and Point of Sale material. With addition of a 3rd party cutter it can even be used for label production.

- Dual CYMK ink set with extended gamut , enhanced brightness and super-fast drying characteristics
- Up to 1440 x 1440 dpi with advanced VSDT and Epson Precision Dot Technology for outstanding image quality with a high-gloss finish
- Supports print speeds up to 95 m2/hr with auto head cleaning and same day lamination
- DUAL print heads, 12L Bulk Ink Supply System, and integrated Auto-Take-Up, for efficient sheet and roll based production
- Produce better quality prints with a much lower production cost than traditional signage printers, all backed with a comprehensive 'heads-n-all' warranty

SureColor F3060

Produce high-quality customised garments and merchandise quickly, easily, and at minimum cost. Designed for medium to high volume production, the SureColor F3060 combines superior speed with extended durability, and a lower Total Cost of Ownership (TCO). Produce T-shirts, Polo-shirts, bags, and caps, and more.

- CYMK + White Ink set
- Up to 4 times faster than traditional DTG printers
- Advanced platen design with auto height adjustment for fast loading
- 9L bulk ink and 4L waste systems enable continuous and cost-effective production
- Dual 2.6" PrecisionCore print heads enable high-speed single-pass colour + white prints
- Auto nozzle status monitoring auto head and cap cleaning ensure high quality imaging with minimal wastage
- Supplied complete with easy to use production and job costing software, runs off a standard 240V power supply
- Advanced Linear Motion Guide carriage system and heavy duty motors enable durable operation , all backed by a comprehensive warranty with service cover extendable to 5 years

SureColor F9460H

Produce durable high-impact fabrics quickly, easily, and at reduced cost. The SureColor F9460H is a high performance Dye Sublimation printer that combines high-speed operation, with outstanding image quality, and easy maintenance. It suits a wide range of applications including custom fabric, clothing, and signage production.

- Dual CYMK ink set with extended gamut and enhanced brightness
- Optional Fluorescent Yellow and Pink inks can be combined with the standard colours to enhance impact and gamut even further
- Up to 1440 x 1440 dpi with advanced VSDT and Epson Precision Dot Technology for outstanding image quality
- Supports print speeds up to 108.6m2/hr with auto nozzle status monitoring and head cleaning
- DUAL print heads, Bulk Ink Supply System, and integrated Auto-Take-Up, for efficient sheet and roll based production
- Supplied complete with software, can be run off a standard 240V power supply, and suits operation in a warehouse or air-conditioned office environment
- Comprehensive single-source warranty and service cover extendable up to 5 years

SureColor 560/561

Make merchandise magic with the SureColor F560. This printer brings Dye Sublimation to the desktop in a compact package that is affordable, easy to use, and cost effective to run. Its flexible design suits in-house production of a wide range of goods including customised shirts, mugs, photo merchandise, soft and hard signage.

- Supports sheet & roll media up to 17" wide complete with a sheet feeder
- Ink tank system enables production with a low running cost and has 2 ink set options; standard (F560) or Fluro (F561)
- Both ink sets produce high quality images that are bright with an extended gamut
- Integrated auto-cutter enables operation with a sheet based heat-press
- Supplied as a complete package with software, media and ink. Optional stand available.
- Simple to use, easy to maintain, and backed with comprehensive single-vendor service cover

SureColor T5460M

Why just purchase a printer when you can get a complete Large Format Imaging System for under $8.5k inc. tax with a comprehensive 5 year on-site service. The SureColor T5460M offers the ultimate solution for business, government and education. It combines a fast print mechanism with a high resolution scanner to facilitate full colour document reproduction. Whether you are producing plans, sales documents or posters this is the printer for you. It features a very low running cost and outputs durable prints that are resistant to damage through abrasion and moisture exposure.

- Print, scan, copy, and share documents up to 36"/A0
- All pigment ink produces high-quality prints that are bright and durable
- Advanced CCD recognises positive & negative images complete with Fluro mark-ups
- Uses cost-effective 350ml max ink carts and features ultra-low power consumption
- Compact & easy to operate with print heads that don't require regular replacement
